

Vinita Kashyap

Aspiring AI Engineer and Full-Stack Developer

✉ kashyapvinita17@gmail.com ☎ 8789881069 📍 Jalandhar, Punjab

PROFESSIONAL SUMMARY

Bachelor of Technology student aiming to specialize in AI and Machine Learning, Full-Stack Development, and IoT. A proactive problem solver and polyglot, eager to leverage technical skills in Python, Java, HTML, CSS, JavaScript, and SQL to drive research and innovation in technical roles.

EDUCATION

Bachelor of Technology, Computer Science and Engineering 2025 – 2029
Lovely Professional University

Intermediate Education, Science 2022 – 2024
New Chaitanya Junior College
GPA: 93%

Secondary Education, General 2021 – 2022
Jawahar Navodaya Vidyalaya
GPA: 87.2%

PROJECTS

Solar-Hybrid Smart AI Blind Stick 2026
Arduino/Microcontrollers · Ultrasonic Sensors · Moisture Sensing · GPS/GSM · Solar Harvesting · Mobile Integration

An IoT-enabled smart assistive navigation device designed to enhance independence and physical safety for the visually impaired. Combining multi-sensor environmental awareness with solar-hybrid power harvesting and real-time emergency telemetry, the device provides 360-degree obstacle detection, ground hazard alerts, and instant cloud-linked SOS response.

Urban Hero 2026
Gamified Learning · SDG Alignment · Decision-Tree Architecture · System Design

A gamified simulation platform designed to educate and empower youth on civic duty, ethical decision-making, and sustainable urban governance aligned with UN Sustainable Development Goals (SDGs). Through interactive scenarios, players navigate real-world city challenges—such as waste management, resource allocation, and public infrastructure—evaluating the trade-offs of their decisions in real time.

The 5-Level Cognitive Engagement–Dependency Taxonomy 2026
Behavioral Scoring Model · AI Integration · Problem-Solving

At the core of the study is a developed behavioral scoring model that maps how learners integrate AI into problem-solving, ranging from passive consumption to strategic leveraging of AI for complex synthesis and innovation.

SKILLS

Programming Languages: Python, Java, C++, SQL

Web Development: HTML, CSS, JavaScript, React.js, Node.js

AI/ML & Data: Machine Learning, Data Analysis

IoT & Hardware: Arduino, Ultrasonic Sensors, GPS/GSM

Tools & Platforms: GitHub, LinkedIn, Cloud Services

Soft Skills: Problem Solving, Team Collaboration, Leadership

LANGUAGES

- English — Fluent
- Hindi — Fluent
- Bengali — Intermediate
- Telugu — Basic

CERTIFICATIONS

- AI and Machine Learning Certificate
LinkedIn · 2025
- Full Stack Development Certificate
LinkedIn · 2026
- Mental Wellness and Anger Management Certificate
LinkedIn · 2025
- Introduction to Data Science Certificate
LinkedIn · 2025

LEADERSHIP & COMMUNITY IMPACT

- NSS Activities
Participated in National Service Scheme (NSS) activities focused on community service and development.
- Teaching Initiatives
Conducted workshops to teach coding and technology to underprivileged students.
- Community Development Work
Engaged in various community development projects aimed at improving local infrastructure.
- Blood Donation Camp Organization
Volunteered in blood donation camps to support local hospitals and raise awareness.
- Women's Empowerment Initiatives
Led initiatives to empower women through education and skill development.

ACHIEVEMENTS & HIGHLIGHTS

- Startup Development - Urban Hero
Contributed to the development of a gamified simulation platform that educates youth on civic responsibility and ethical decision-making.
- Research Work
Developed a behavioral scoring model to assess AI integration in problem-solving.
- Social Impact Initiatives
Engaged in various social initiatives to promote education and community welfare.
- Technical Innovation
Implemented innovative solutions in IoT projects to enhance user experience.
